

Star Gate :

Frankincense is considered the "Holy Anointing Oil" of the Middle East. It allows us to open up and be ready to receive guidance from Light Spirits in other dimensions.

At this level we are offering our service to the Divine, to assist in the rise of consciousness here in the third dimension, our own energy is becoming lighter and we are more finely attuned to the universe around us.

Frankincense increases spiritual awareness, promotes meditation, improves attitudes and uplifts spirits.

We know during the time of the Christ for its anointing and healing powers and was another of the gifts given to Him by the 3 Wise Men.

It has been used to treat every conceivable illness known to mankind, it rejuvenates and revitalizes the body.

Antitumoral, immunostimulant, antidepressant & muscle relaxant.

Frankincense also contains sesquiterpenes.

Frankincense was valued more than gold in Ancient times, and only those with great wealth and abundance possessed it.

Also mentioned in Ebers papyrus, one of the oldest medical records.
